Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Applicant's amendment received October 22, 2003 is acknowledged and entered.

Applicant's response detailed the claim inconsistencies noted in the last Office Action dated September 11, 2003. The amendment of October 22, 2003 includes the addition of new claims 50-54. However, claim 50 has been cancelled as a result of previous amendments. Therefore, new claims 50-54 are renumbered as claims 51-54 according to CFR 1.126. Applicant should make note of the change and correct claim dependencies.

2. Claims 1-41, 43-44 and 51-55 are pending. In view of Applicant's amendment filed October 22, 2003, which corrects previous claim amendments that were inconsistent between the instant application and the PCT application amendments, the following new election/restriction is applied.

Election/Restrictions

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- Group I, claims 1-16 and 20-21, 24-29, 32-33 and 51-55, drawn to a method of modifying a producer cell, the resulting producer cell, and a method of using the producer cell, wherein the method is a recombinase assisted method.
- Group II, claim 17, drawn to a retroviral particle.

Art Unit: 1648

- Group III, claims 18-19, 22-23, 30-31, 34-41, 43-44, drawn to a producer cell and method of using a producer cell, wherein the method does not require the recombinase assisted method.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The asserted special technical feature, a recombinase-assisted method of modifying a producer cell, is not shared by all three groups. Group II is drawn to a retroviral particle produced by the producer cell. The claims of Group II are product-by-process claims, and therefore the process is not given patentable weight. The cell and related methods of Group III do not require the recombinase-assisted method of modifying a producer cell. Therefore, the invention lacks unity because the Groups do not share a special technical feature.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
